

SIT764 – CAPSTONE PROJECT (A)

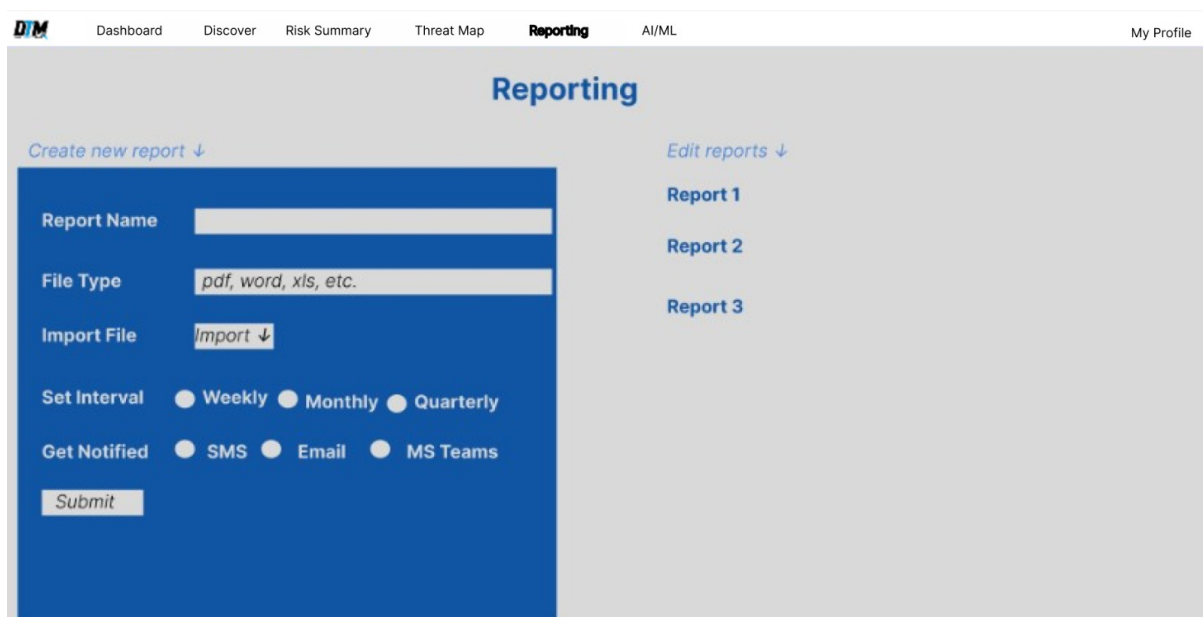

Hardhat Enterprises – DEAKIN THREAT MIRROR

Sprint 4 Task:

Wireframe and UI: Reporting Page Using Figma

Completed by:

Mano Janardhan Bhagavathi & Manasvini Duddukuru

The image shows a wireframe of a web application's 'Reporting' page. At the top is a navigation bar with the 'DTM' logo and links for 'Dashboard', 'Discover', 'Risk Summary', 'Threat Map', 'Reporting' (which is highlighted), and 'AI/ML'. A 'My Profile' link is located on the far right. The main content area has a header 'Reporting' and two sub-headers: 'Create new report ↓' on the left and 'Edit reports ↓' on the right. The 'Create new report' section is a blue sidebar containing a 'Report Name' text input, a 'File Type' dropdown menu with the text 'pdf, word, xls, etc.', an 'Import File' button with a dropdown arrow, a 'Set Interval' section with radio buttons for 'Weekly', 'Monthly', and 'Quarterly' (where 'Monthly' is selected), a 'Get Notified' section with radio buttons for 'SMS', 'Email', and 'MS Teams' (where 'SMS' is selected), and a 'Submit' button. The 'Edit reports' section on the right lists three reports: 'Report 1', 'Report 2', and 'Report 3'.
