

SIT764 – CAPSTONE PROJECT (A)

Hardhat Enterprises – **DEAKIN THREAT MIRROR**

Sprint 4 Task:

Wireframe and UI: **Developing Page Using Figma**

Completed by:

Mano Janardhan Bhagavathi & Manasvini Duddukuru

The image shows a UI wireframe for the 'Reporting' page of the 'DEAKIN THREAT MIRROR' application. The top navigation bar includes the 'DTM' logo and links to 'Dashboard', 'Discover', 'Risk Summary', 'Threat Map', 'Reporting', and 'AI/ML'. A 'My Profile' link is located in the top right corner. The main heading 'Reporting' is centered at the top of the content area. Below the heading, there are two main sections. On the left, a blue sidebar contains a 'Create new report' link with a dropdown arrow, followed by a form with fields for 'Report Name', 'File Type' (with a placeholder 'pdf, word, xls, etc.'), 'Import File' (with an 'Import' button and a dropdown arrow), 'Set Interval' (with radio buttons for 'Weekly', 'Monthly', and 'Quarterly'), and 'Get Notified' (with radio buttons for 'SMS', 'Email', and 'MS Teams'). A 'Submit' button is at the bottom of this sidebar. On the right, there is an 'Edit reports' link with a dropdown arrow, followed by a list of three reports: 'Report 1', 'Report 2', and 'Report 3'.
